Subject: Fwd: people in Pitchfork Rebellion article

The Oregon Pesticide Analytical and Response Center (PARC) will coordinate a review of these claims of adverse health effects and environmental concerns.

If you dealt with any of these people (telephone assistance, meetings, etc.) before, would you please let me know -- I need to forward any information that you have on their claims of illnesses or symptoms to Dale Mitchell, PARC co-Chair and Ass. Administrator of Oregon Dept. of Agriculture. Thank you for your help!

Good afternoon, all.

By now, most of you have probably read the cover story from last week's Eugene Weekly, pictured below.

If not- here is the link:

This is the type of broad-based, pesticide-related concern that PARC is ideally suited to address. In order to evaluate the concerns raised in this article, we will need to bring

diverse expertise to the table. By sending this message, I am inviting partners from ODF, ODOT, ODA, DEQ and OSPH to participate in the state response.

I am proposing a conference call at 10:00 am on Thursday, April 6, 2006, in order to brainstorm about the most appropriate strategy.

In preparation for the meeting, it would be helpful if a representative from each agency/entity would prepare a summary of any prior interactions your agency/entity may have had with members of the "Pitchfork Rebellion." From the article, I am aware of these names:

(b) (6)

A large black rectangular redaction box covers the names of the agencies/entities mentioned in the previous paragraph. The text "(b) (6)" is visible in the top left corner of the redacted area.

If possible, please provide me with a copy of your summary by Wednesday, April 5. There may be others in the same geographical area with similar reports/allegations; if you think it will add to the group's understanding of the issues, please include those in your summary.

Thank you, in advance, for your help on this issue. If you have any questions about this message, please let me know.
